CERTIFICATES

Certification from IIT Bombay
Spoken Tutorial Certification at

- C language
- RDBMS
- Java
- CPP

EDUCATION

MCA(computer Application)

Slnhgad Institute of
Management(SIOM) Vadgoan(BK)
2024-2026

BSC (computer Science)

Vidya Pratishthan's Arts,Science
and Commerce Collage Baramati
CGPA : 8.17

HSC

Vidya Pratishthan's Arts,Science
and Commerce Collage Baramati
Percentage : 81.20%

CAREER OBJECTIVES

Seeking a challenging position in a reputable organization to continuously learn new skills, expand my knowledge, and leverage my capabilities to contribute to organizational growth.

Internships

Product Website

- **Stack:** Next.js, Tailwind CSS, TypeScript, React (ES6, JSX), jQuery, NPM, Git/GitHub, NGINX.
- Built an interactive, animated carousel and reusable UI components, improving user engagement and interactivity.
- Implemented SEO-friendly features including sitemap generation, <meta> tags, Roboto font integration, and lazy loading for performance enhancements.

Documentation Website

- **Stack:** Docusaurus, Tailwind CSS, React, Markdown/MDX, TypeScript, Git/GitHub, NGINX.
- Developed a static documentation site using Docusaurus, aligned with the main product website's design language.
- Optimized Docusaurus configuration for better SEO performance.
- Created a custom landing page to improve usability, navigation.

Blog Website

- **Stack:** Next.js, Tailwind CSS, TypeScript, React(ES6), Sanity CMS, Git/GitHub, NGINX
- Built a dynamic blogging platform integrated with Sanity CMS to allow content updates without code changes.
- Enhanced SEO through server-side rendering (SSR) with Next.js, metadata optimization, and responsive design.

Shopify Product Store

- **Stack:** Shopify
- Customized and managed a Shopify-based product store for online retail.
- Created product collections, optimized storefront UI.

PROJECTS

1. Online Pesticides Store Website

- Technologies Used: Python, Flask, JavaScript, Bootstrap, HTML, CSS, MongoDB, Postman
- Developed a fully functional e-commerce website dedicated to selling pesticide products across various categories, implementing key features like product search, filtering options, user authentication, shopping cart, and wishlist functionality.

2. E-Learning Web Application (MERN Stack)

- Developed a full-featured e-learning platform using React.js, Node.js, Express.js, and MongoDB, incorporating secure user authentication with email verification via JWT.
- Implemented an intuitive admin dashboard for managing users, courses, and lectures, with integrated video streaming and payment processing through [insert payment gateway, e.g.Razorpay].
- Designed to be responsive and desktop-friendly, it ensures scalability and enhances user engagement.

3. E-commerce website

- Technologies used: Node.js, express.js, MongoDB.
- Develop and maintain the server-side database using a MongoDB. Implemented database queries for rendering, authentication.
